

MEMORANDUM

To: Zoning Board of Appeals
From: Kariline P. Littlebear, Zoning Administrator
Date: May 1, 2024
Re: ZBA24-09
RCOC Road Right-of-Ways at Joshua Dr & Harvey Lake Rd
11-22-280-000
Applicant: Pamela McCormick
Owner: Highland Valley Subdivision HOA

The subject area is within a R1.5 (RPUD) – Residential Planned Unit Development in the Road Commission for Oakland County (RCOC) road rights-of-way of Joshua Dr and Harvey Lake Rd.

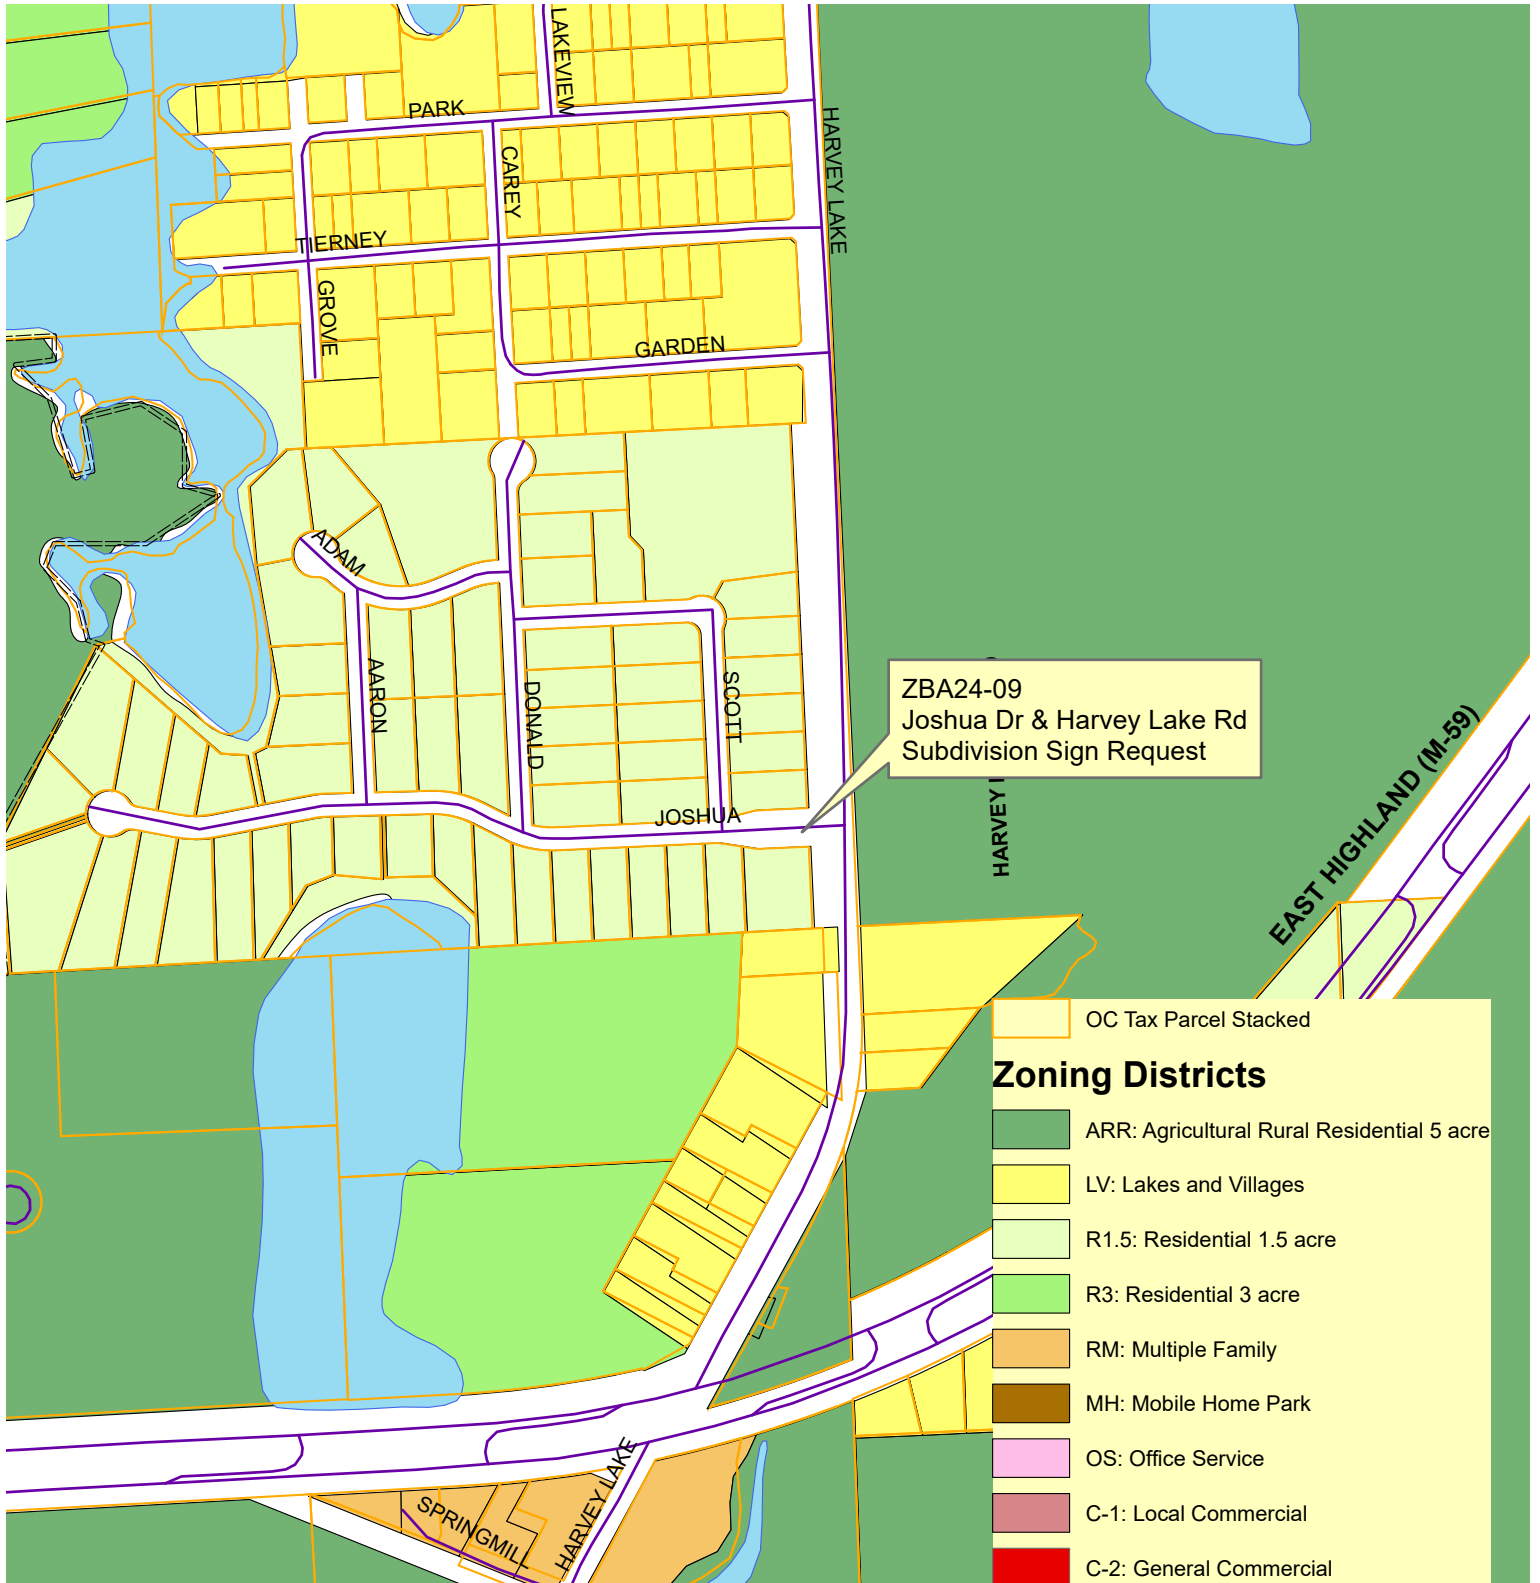

The required setbacks for a freestanding sign in R1.5 are as follows:

Road Right-of-Way: 10 feet
Maximum Height: 4 ft
Maximum Height of Decorative Elements: 6 ft
Maximum Square Feet: 32

This request is for a 10-foot variance from the required 10-foot road right-of-way setback to 0-foot provided; a 2-foot variance from the required 4-foot maximum height of sign to 6-feet provided; and a 2-foot 2-inch variance from the required 6-foot maximum height of decorative elements of a sign to 8-feet 2-inches provided for a 6-feet by 5-foot sign with 12-foot by 8-foot 2-inch decorative posts and beam. This request is for a variance from Section 14.07.I.8. and Table 14.2 of the Zoning Ordinance.

The applicant has provided a plat survey, approval from RCOC, and elevations. Staff has supplied assessing records, a zoning map, an aerial approximation of the property, and Section 14.07.I. and Table 14.2 of the Zoning Ordinance.

ORDINANCE SECTIONS BEING APPEALED: Section 14.07.I.8 and Table 14.2
Section and Table re: Freestanding signs

VARIANCES REQUESTED: 10ft variance from 10ft Road Right Of Way setback to 0ft provided; and 2ft variance from 4ft max height of sign to 6ft provided; 2ft 2 inch variance from 6ft max height of decorative elements to 8ft 2 inches provided.

DESCRIBE THE NATURE OF YOUR PRACTICAL DIFFICULTY: OCRC (Oakland County Road Commission) is no longer brushcutting/clearing and mowing summer overgrowth on Harvey Lake's Road right of way north and south of Highland Valley Subdivision entrance. This overgrowth and natural expansion of the tree growth line severely limits the visual sight of current entrance sign that was constructed in 2002. Current size and location is a definite safety issue if traveling at posted road speeds and looking for sub entrance sign without drastically reducing speed and having to take eyes off road while searching for current sign which sits too far off Harvey Lake Road to be safely and readily seen by drivers.

I certify that all required information is shown on the attached plan and included on this form. I acknowledge that by signing this application, I am granting the right of the Zoning Board of appeals members, inspectors and administrators to conduct a site inspection of the subject property. CHARTER TOWNSHIP OF HIGHLAND
ZONING BOARD OF APPEALS
WORKSHEET

The worksheet is designed to help you understand the appeal process and to help you submit a complete application for review by the Zoning Board of Appeals. If you have any questions after reading this worksheet you may contact the Planning and Zoning Department for assistance.

HAVE YOU MET ALL OF THE FOLLOWING CRITERIA?

- 1) Do the characteristics of the property include exceptional narrowness, shallowness, smallness, irregular shape, topography, vegetation or other similar characteristics? If so, please describe here.

Exceptional vegetation overgrowth of both road right of way and visual sight lines north and south of

Highland Valley Subdivision's entrance has made/is making the current sign size and location

very difficult and unsafe for drivers to see while traveling down Harvey Lake Road at posted speeds.

- 2) Can the project be redesigned to meet the zoning requirements without the need for a variance?

No

- 3) Is the reason for a variance request of a personal nature? (for example: financial impact, physical and/or mental characteristics of the household members, inconvenience, etc.)

NO

4) Has the difficulty been created by the current or previous owner?

No: Reason for variance request is for the safety of the drivers looking for subdivision sign

5) Will the proposed variance be harmful to or alter the essential character of the area in which the property is located?

No: Structure of island is already in place and will accomodate size and location of sign

6) Will the proposed variance be the minimum necessary?

Yes

Sec. 14.07. Signs allowed by permit.

The following types of signs are permitted as specified in this Section and shall require approval from the Zoning Administrator and permits from the Building Official:

I. *Freestanding signs.*

1. All freestanding signs shall comply with the dimensional requirements in Table 14.2, Permitted Freestanding Signs.
2. Within all nonresidential zoning districts, except the Highland Station District, only one (1) freestanding sign shall be permitted per parcel.
3. Within all residential zoning districts, only one (1) freestanding sign shall be permitted as follows:
 - a. At the primary entrance for the purpose of identifying a subdivision, site condominium, multiple family development, or Mobile Home Park.
 - b. One (1) additional freestanding sign may be permitted at a secondary entrance if it is not located on the same street as the primary entrance.
 - c. Only one (1) freestanding sign shall be permitted per lot for the purpose of identifying a nonresidential special land use and permitted farming activities.
4. Within all PUD districts/developments, additional freestanding signs identifying the name of the project, or the names of sub-area(s) within the project, with distinct land use(s) may be approved, subject to the review and approval by the Planning Commission. Such signs shall be limited to forty (40) square feet and a height of eight (8) feet.
5. All freestanding signs shall meet the height and area requirements in Table 14.2, Permitted Freestanding Signs.
6. The ratio of the width to height or height to width of the sign face at the widest and highest points shall not exceed three (3) to one (1).
7. All freestanding signs shall carefully coordinate with proposed landscaping improvements and existing signs to prevent obstruction now or in the future.
8. For a freestanding sign, the sign face, its support structure and all decorative elements must be contained within one (1) theoretical rectangle of not more than one hundred (100) square feet. Decorative elements may extend two (2) feet higher than the maximum allowable sign height, provided they are still contained within the theoretical rectangle and contain no text or graphics other than the street address. The design of the sign and its placement shall be such as to not unreasonably restrict the sight lines of drivers entering or exiting the property.

Maximum height and area requirements for freestanding signs shall be applied within each zoning district according to the following schedule:
9. In addition to the allowable signage provided in Table 14.2, Permitted Freestanding Signs, one (1) gasoline price sign shall be permitted per gas station. Said sign shall not exceed twelve (12) square feet in area per side. It shall be affixed to a permanent sign structure or to a building and shall not be located closer than twenty (20) feet to any side property line. The price sign shall not be included in the total area of signage otherwise permitted. The price sign may be an electronic changeable copy sign, subject to the provisions of Section 14.07.H.2. Changeable copy signs.

RE: Application Number 24-0256

Dear Applicant:

Your application for a permit has been approved. Prior to issuing a permit, the attached requirements must be met by you or your contractor. If the proposed work will be conducted by a contractor you hire, please provide them with the attached requirement sheet and bond form. The permit will be issued in the contractor's name.

The items required prior to permit issuance must be delivered **IN PERSON** by someone authorized to sign the permit on you or your contractor's behalf. Failure to satisfy these requests will delay permit issuance.

Thank you for your cooperation regarding this matter. If you have any questions, please feel free to the Department of Customer Services - Permits at (248) 858-4835.

Sincerely,

Scott Sintkowski, PE

POINT OF OBSERVATION

Major Road A Paved Surface:
 (A) Fifteen (15) minimum feet from edge of pavement of through lanes.

Major Road Gravel Surface:
 (A) Fifteen (15) minimum feet from edge of gravel.

For gravel surfaced roads on assumed speed of 45 mph, shall be used to determine sight distance unless otherwise posted. Certain existing conditions may require an engineering study to determine the sight distance.

The point of vision shall be from the height of eye, 3.5 feet above the proposed intersecting elevation to a height of object 3.5 feet above the existing or proposed road centerline and shall be continuously visible within the specified limits.

Notes:

- Any deviation from given data requires an engineering study approved by the R.C.O.C. in accordance with 2011 AASHTO policy on geometric design.
- This design guide also applies to New Permit & Flat construction projects.
- The above data is based on a left turn maneuver into the intersecting major roadway as described in AASHTO. Due to the higher potential accident severity, the left turning sight distance was used to determine the corner sight distance required. Right turn onto major roads shall have the same sight distances.

Re: Zoning Case Number 24-09, Entrance Sign Variances

Case # 24-09
J

I am the Highland Valley Subdivision homeowner association president, and I live 5 houses from our entrance sign. I have lived in Highland Valley for 24 years and have been president for 10 years or more. I am writing to support our variances request. I run a club board meeting on May 1, and cannot attend your review.

Our entrance sign is the original stacked-block construction and has aged significantly. We formed a team over a year ago to replace the sign. Pam McCormick is leading the effort.

We want a slightly larger sign, and we want it closer to Harvey Lake Road. The sign we have now is hard to see traveling 50 mph on Harvey Lake Road. It's far from our light pole and is visible only after you are right upon our subdivision entrance. There are larger entrance signs in our township.

I recognize the importance of sightlines as they relate to safe entry and exit of our neighborhood. The proposed location of our sign does not impact the north or south bound sightlines of Harvey Lake Road. Today I took two photos from my car window as I exited our sub headed east approaching Harvey Lake Road. The first photo is ahead of the stop sign showing the red flag (in blue circle) locating the furthest edge of our proposed sign. Driving further east towards the entrance apron where we all stop to look north, its clear the old or new sign have no impact on the sightline.

I welcome you to come visit our neighborhood. A simple drive up and down Harvey Lake Road and in and out of Joshua Drive will show you the proposed sign location does not impact sightlines. Our practical difficulty is the sign is not effective and is obscured by the expanding tree line along Harvey Lake Road. You don't see our sign until you just about pass by our subdivision. It is positioned too far inward.

Thanks for your consideration,

Jay Pistana, jaypistana@aol.com, 586-864-5734
